DOCUMENT 0124-01FN

Overview:

Esteemed Reader,

This document was made by **former v4p0r's NLD members** (Forming the FNIS), **Barbershop members** and a **former "TCR"** (TCR was/is a RBLX-Obscene content erotic roleplay group) member, who started documenting everything within the NSFW community that had to do with **Unorthodox Facilities/TCR group's former/current members** that are within the V4POR's NLD

v4p0r's NLD Group link:

<https://www.roblox.com/groups/2525269/NLD-Kingdom-of-the-Netherlands#!/about>

Disclaimer:

This document's spreading is bound to be "prohibited" within the NLD Community.

Expect this prohibition to be defended with: "**Causing drama**", "**Misinformation**", or in a worst case scenario, expect them to say "**We have people aged 13 in the community.**"

If you are uninformed about everything mentioned above and wish to can have a better loop preview, please check:

 NESTENES/SIRDAVID EXPOSÉ ← Explicit content warning.

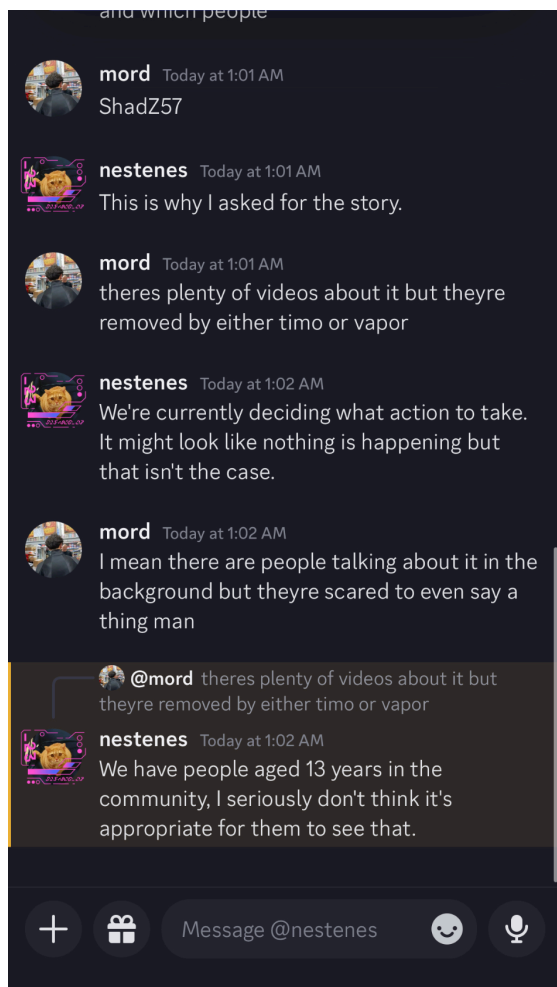

(p.s. This document's spreading was prohibited within v4p0r's NLD).

Quick preview

Nest, for those who did not know, is considered the 2iC (Second in Command) of whole NLD and considered also as head administrator. However, he has an unclear background with another alt account used to develop material for obscene RBLX in game content.

NLD is at the moment full of pedophiles (both in mod team and non-mod) and ERPers which are not getting banned.

Document may contain possible NSFW Content. Proceed with the document if you wish.

S-1: The protection on the wrong doers

If you've seen the doc

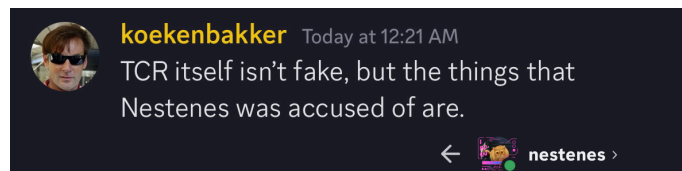

( NESTENES/SIRDAVID EXPOSÉ)

You surely will know that nest is SirDavid, known as Unorth facilities and TCR developer, both Roblox Obscene content communities which break TOS and full of pedophiles.

Either way, that doc is censored mostly everywhere where nest has command.

But besides this, many members within NLD which are even HR (Weeniepie, ShadZ, Vleugels, demi, etc) Were members of TCR. No one has still done anything about it even though nest himself said that he knows that its true (Ofc he does lol) and even says "We have people aged 13 years old in the community" making it look like that spreading such docs isnt a great idea. **Then why not banning all the pedophiles and such that could be a threat to the community if CLEAR evidence was shown?** Also he fact he's also mentioning out the fact that the doc has NSFW conten knowingly that it shouldn't be accessed to people aged 13 or around that, Knowingly that the doc represents some of his NSFW Actions.

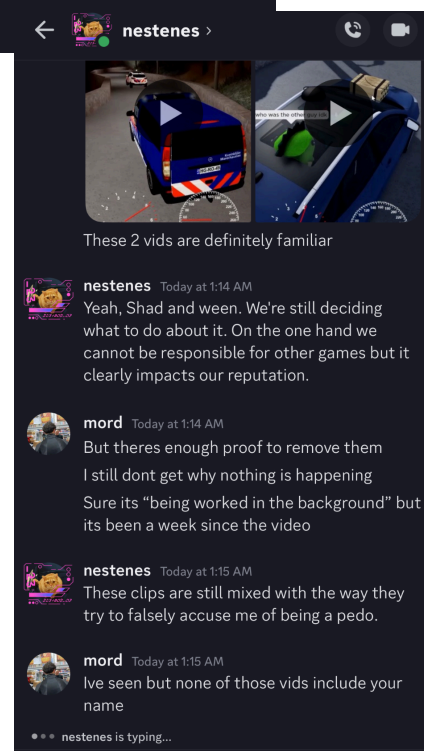

Koeken I've always knew that you were a gawk gawk type person, but even here **"TCR itself isn't fake, .."**
Then why not taking action on those who were apart of it?

Side note: For those who did not see the videos, see the page below

Even here, why not banning them directly? **Proof on ween, shad and Vleugels coming further in the document.**

Can we say it? Nest is trying to save his ass but even there, he's failing incredibly. Because instead of straight up banning them, he's just finding some random excuses. "Taking action on the background", "Investigating" This isn't some lego court type of shit, we are talking about pedos in a community accessible to 13 years old, proof was given, yet no one is donig stuff.

S-2: The unexplained statements (CLEARED)

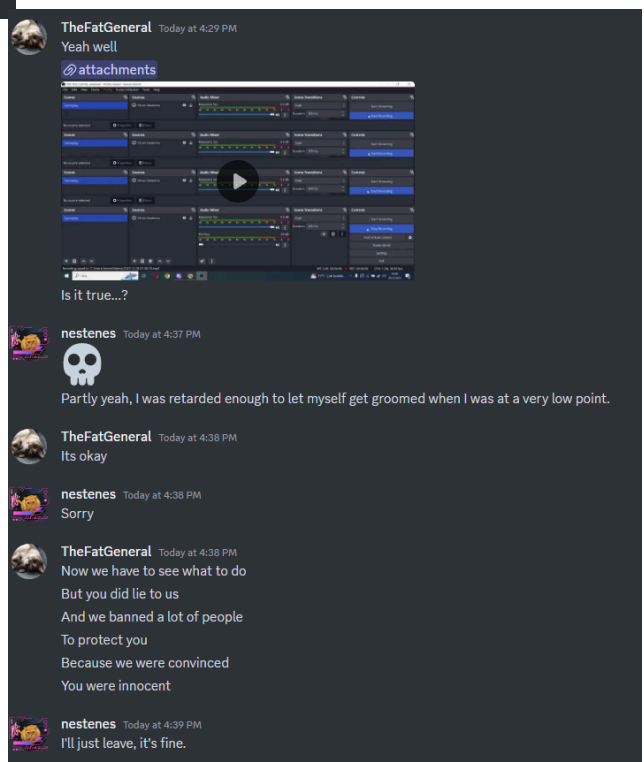

repercussions, that nest is making some conditions to other “non-directly involved” moderators within this situation regarding not banning former/current members of Unorth facilities and/or TCR members.

Clearing out confusion: Timo was never actually fully aware of any actions happening against the pedophiles/ERPers within NLD. He was afterall complying with simple indications given by nest and higher ups. Timo is 100% innocent. REMINDER THAT TIMO HAS NOTHING INVOLVED IN THIS AND NEVER MEANT TO SUPPORT NEST'S BULLSHIT

REMINDER TO NOT HARASS ANYONE NAMED WITHIN THIS DOC

Timo has been apart of the NLD community for years if not the start. Besides the fact of him having n word logs in the chats which are still not moderated, he is very well known for being one of the most strict moderators on “Degenerate” bullshit and stuff. But even then, why is he complying with nest's actions in deleting the proof and does about it, if he himself knows that there are erpers, WHY is he not banning them straight up? This is also unexplained to us as well. Best hypothesis that we have at the moment is that he is simply unable to do it without getting some

S-3: Nest's admitting

Yes, you heard right, nest himself has ADMITTED of being apart of TCR as a dev with his alt known as SirDavid.

Do not harass anyone within here thanks.

First of all, don't spam or your acc will be deleted mostly likely, dont end up on the part of the wrong! But also remember to expose what has been covered down.

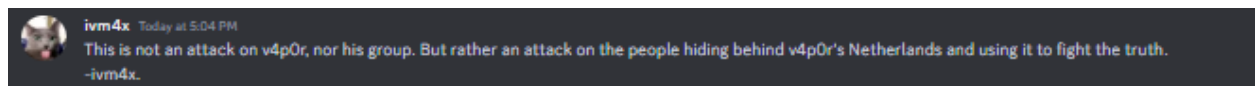

NOTE TO BE READ

Not all moderators were involved in defending nest or anything related to his actions. Some were just unaware of the full proof presence or just unable to "accept it" which I dont blame them for that. However, you were given full proof now.

Moderators who were not involved can anyways be easily noticed by simply watching their behaviour

This is not an attack on v4p0r, nor his group. But rather an attack on the people hiding behind v4p0r's Netherlands and using it to fight the truth.
